## Train the Trainers Prescription Drug Abuse Registration Form

The Train the Trainers on Prescription Drugs is a five day program that is structured much like the Community Addictions training offered at Neechi Institute. It will provide participants with the necessary knowledge, skills and attitudes required to understand the effects of prescription drug abuse on the individual, family, community and nation. This program will address the needs of our communities by assisting frontline workers in exploring the various strategies, presentations and programming that is required to empower our people in exploring treatment options that will enhance their healing journey.
